

## Not sure what to write?

Here are some example captions to use to promote and sell! Add them to stock images, images from @jodystoski's instagram (please always tag credit), images of yourself, especially ones of you tattooing or sitting at your computer taking the course!

## PRO TIP

Make the captions your own! Style them to suit your brand, using emoji's, bullet points, mixing up words, and truly making them authentic to your voice and written to best target your network!
